1. This Office Action is in response to applicant's (paper #) received on 27 March 2006.

2. The following is an examiner's statement of reasons for allowance:

After further consideration, the applicant's arguments are convincing. In particular, the specification on page 5, lines 17-27 and page 17-25 are sufficient to explain how calibration must be performed using energy calculations or peak-related criteria such as peak-to-peak measurements and the claim limitations thereto are construed as being so limited that they differentiate over the prior art that calibrated according to a threshold.

3. New (amended) drawings 1A and 1B are accepted. However, words or abbreviations must be placed in the boxes that do not have a distinctive shape to give them meaning. That means "system unit" 122, "keyboard" 166 and "mouse" 128, 170 must be so labeled. Other items may be similarly labeled with text or abbreviations but their shapes are distinctive enough to provide meaning. (see attached)

4. The new abstract is also approved.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Some correspondence may be submitted electronically. See the Office's Internet Web site <http://www.uspto.gov> for additional information.
